

Meritor Part

Meritor Part - Meritor is a leading global supplier which is proudly founded on a one hundred year tradition of quality and service. They focus on a broad range of integrated systems, modules and parts to original machine makers and the aftermarket for the transportation and industrial sectors.

Meritor prides itself in the company's unique energy and feels that this energy contributes to their competitive advantage in the worldwide operations. The business values all their customers and wants to guarantee their success while anticipating their different needs. Meritor starts with a philosophy that values diversity of individuals and their broad thought processes. Operating in 19 countries and hiring more than 11,200 individuals, Meritor promotes collaboration and innovation among a team of knowledgeable professionals.

Meritor strongly believes in only employing future focused individuals. These top-caliber people could quickly adapt to changing surroundings and freely demonstrate the level of commitment and performance necessary to get results for the competitive market environment. The business empowers their teams to make sound business decisions to be able to enhance the overall success of the business. In return, Meritor offers their employees various opportunities for professional and personal development.

The Advanced Engineering team is on the forefront of systems engineering and components. This includes drivelines, axles, suspension and braking systems designed for heavy duty and medium trucks, trailers, off-highway vehicles, buses and military vehicles. The Meritor Advanced Engineering team is developing. They started a new technical center in Bangalore, India in September 2009 in order to lead their advanced product development initiatives that represent the entire Asia Pacific region. This particular team is likewise responsible for supporting the requirements of their international engineering personnel.

The Quality team at Meritor is a dynamic and customer-focused group that is devoted to ensuring optimum growth at their production plants and aftermarket distribution facilities which are situated on 5 continents and in 19 nations.

The supplier development network is specifically located to support new business development. Regional teams are supported by international quality systems, centralized specialties and initiatives in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program promotes a fact-based, data-driven method to decision making within every aspect of the business. The DFSS or Design for Six Sigma ensures product reliability within each region. The team is also comprised of transactional Green Belts who use Six Sigma tools to business processes and apply lean methods.
